EDUCATION

Northern Arizona University

M.S. Computer Science — Expected December 2026

B.S. Computer Science — May 2026 | GPA: 3.95/4.00

Outstanding Senior in Computer Science — May 2026

TECHNICAL SKILLS

Languages: Python, C, Go, JavaScript, SQL

Technologies: Linux, Git, React, gRPC, REST APIs, PostgreSQL, AWS/S3

Cybersecurity: System hardening, reverse engineering, cryptography, automated testing

Training: AFIT Immersive Cyber Education Program, Certificate of Completion — August 2024

PROFESSIONAL EXPERIENCE

Graduate Research Assistant | Northern Arizona University | Aug 2026–Present

- Develop Python backend infrastructure and AI-supported features for CommUnityBuddy to help open-source contributors understand community structure and contribution guidelines.

Advanced Course in Engineering Cybersecurity Intern | Griffiss Institute | May–Aug 2026

- Built a React/Go application using gRPC to display drone payloads, locations, and radar pings, improving situational awareness during a simulated operation.
- Developed a Model Context Protocol server in Go to support LLM-driven cybersecurity testing and research into accelerating tool development.
- Authored 200+ pages of reports covering system hardening, exploitation, reverse engineering, and cryptography, including solutions and analysis of risks from incorrect assumptions.

Arizona Space Grant Intern | Katalyst Space Technologies | Jan–May 2026

- Built a Python pipeline to retrieve radar measurements through the Unified Data Library API; researched space object classification challenges and proposed future solutions.
- Retrieved optical measurements from AWS S3 and compared them with radar observations.

Computer Science and Cybersecurity Tutor | Northern Arizona University | Aug 2023–Present

- Tutor individuals and groups in programming, debugging, data structures, and cybersecurity, adapting explanations to students' experience levels.

LEADERSHIP

i5 Space Squadron Commander | Northern Arizona University | May 2025–May 2026

- Directed a six-member team coordinating squadron activities and led the first training class for four new members on the Space Force mission and space-domain challenges.

Air Force Reserve Officer Training Corps Cadet | Northern Arizona University | Aug 2021–Dec 2025

- Selected for commissioning into the U.S. Space Force.
- Served as Squadron Training Officer, August–December 2025, preparing 22 cadets for Field Training.
